Wall street was considerably puzzled by the resumption yesterday of aggressive tactics for take the courage out of the bear party and to abounding resources. They drove some longhave been formed by some of the powerful ophave recently been the special target for bear attack reflected the most urgent demand. souri Pacific, which is a leader of this class, showed gathering strength during the day in connection with Tuesday's annual meeting of the stockholders of the St. Louis & Southwestern, the action of which is supposed to forelow more intimate relations between the ron Mountain and Southwestern railways. From the early low point Missouri Pacific was carried up 3's per cent. Burlington also reflected the demands of a large outstanding short interest. and was marked up an extreme 2%. Baltimore & Ohio, Northern Pacific and Louisville were also ent in this class, but the movement gathered force and breadth, and ultimately spread through the whole list. The most buoyant per-led of the market was due to the circulation of rumor that President Mitchell, of the Mine Workers' Union, had called the coal strike off, which completed the discomfiture of the shorts. Even Tennessee Coal, which had sold down 31 on the fear that no dividend would be declared it to-day's meeting, rallied four points, and lugar, which had fallen 2% on account of the semoralized condition and the deep cutting in prices in the refined sugar market, railied 1%. The continued weakness of sterling exchange was used by the bulls as an argument for an dvance in stocks, on the ground that imports f gold could not long be deferred. A further asing of discount rates in Berlin gave strength o the argument, but in London there was a sigectation that the Bank of England will raise its official rate to-day. The local market for time loans continued firm. The rate for call loans was advanced from 2 to 24 per cent. with the maximum unchanged at 2½ per cent. Bonds were not much affected by the activity n stocks, and price changes were mixed. Total ales at par value were \$980,000. LOCAL GRAIN AND PRODUCE.

A Healthy Volume of Trade in Progress, with Steady Prices the Rule.

A call at the various markets yesterday developed few new features. There seems to be a rule, firm and steady. Poultry, eggs and butter are in active request at prices quoted. Choice butter is scarce. Receipts of eggs are light, but improving in quality. Wholesale grocers are having an excellent trade, and prices rule unusually steady on staple goods. In dry goods, stronger prices are the feature and an active take a cheerful view of the outlook for a good change the present policy of the government as to finances. Retail grocers all over the country are enjoying the best trade in years, and bills were never before so well paid up, so that, with small profits, there is money to the wholesale nerchants, as but few bad debts are made. The New York sugar market is demoralized. The American Company, early in the day, reduced its prices for refined 15 points. Arbuckle Brothers reduced their list prices 20 points for fine granulated. This is 5 points under the Amerother independent refiners are making reductions of 25 points. Later in the day the American Company made another cut of 25 points, max-40 in all. Arbuckle Brothers made another to 5.75c and withdrew all guarantees. The dependent refiners also cut the price to 5.75c. This leaves the price of the American Company 5 points below that of other companies. local grain market shows more activity. eccipts are improving and for all cereals there is a ready market at the following range of prices, as reported by the secretary of the Board

The sea oard reported an excellent demand for cash, but the demand was not apparent here, unless it was done outside the usual channels. The market scored a good advance on buying by shorts, but lost it on profit-taking. November sold between 37%c and 38c, and closed unchanged at 37%c. Receipts were 344 cars. Oats continued in their course of doing noth ng worthy of special mention, but in a smal and modest way followed the fluctuations of wheat. The Battle of the Stars. To the Editor of the Indianapolis Journal: Soon after the close of the war several northern churches established seminaries in the South for the theological training of colored preachers. As all could not attend these there sprang up theological debating clubs, in which dark passages of Scripture were discussed and light sought upon them. At one of these a venerable brother arose and said:

"Mr. Moderator, I want some one to explain the Scripture which says, 'The stars in their course fought against Sisera.' What stars were they?" "Shootin' stars, of course," answered one "But what did they fight with?" asked

the inquirer. "Bows and arrows, of course. You read suppose." answered the instructor.
"Brothers, you are both wrong," inter"Brothers, you are both wrong," That is of the bow in the cloud, the rainbow, I posed the Moderator, rising. "That is what we call a figure of speech, and means that the fates were against Sisera. He was predistinated and forcordained to be killed, and the very place of refuge he had sought was the place of his death, and a woman that promised protection was the immediate instrument. One is in hard luck when the stars in their course fight against

I am reminded of the fate of Sisera the predicament Mr. Bryan is in. Even the Associated Press in its course has turned to fighting against him, though used to beriend him. The dispatches of Oct. 1, from Rush Center, Minnesota, say that he said in a speech there that the ice trust in New York is nothing to the people in northern Minnesota, where ice grows spontaneously every winter, and can be had for the cutting. In other words, the Democratic nbine" which put the price of ice so high in New York that poor people could not buy it at all is nothing to other people Now, any way, you can fix it, this is an attack upon Mr. Bryan. If he said it, it was malevolence to repeat it, for that gives the man away fatally; if he did not say it, then it was malevolence to fabricate so silly a thing and charge Mr. Bryan with it. So it is clear that the stars in their course have marked him as a victim. No sane man would make such a statement. Is he so foreordained and predistinated to de feat that he thus commits suicide? Indianapolis, Oct. 2.

UNION STOCKYARDS. INDIANAPOLIS Oct. 3.-Cattle-Receipts, 750; shipments non-There is quite a decrease to report in the mar keting of cattle, but the supplies continue in excess of the demand. In the steer line the market opened very dull, with the bidding decidedly lower, and early buyers indicated that their orders were limited. Finally a few sales were made at about 10c lower prices, but at a late hour a large proportion of the supply had not changed hands. Best cows and helfers sold usually at about steady prices, but all other grades of cattle, including stockers and feeders, were badly neglected, and quite a number remained unsold

nominal. The supply was extremely light and of only fair quality. There were no good export grades on sale, but as all outside markets were reported weak and lower the tendency here was toward lower values, and had there been any of this class offered they would have sold lower. Butcher stock and feeders comprised the supply and the market on this class was weak to lower, with a decidedly tame feeling prevailing. The closing was quiet, with all sold. Quotations:

Stockers and feeding sheep

Bucks, per head ..

UNION STOCKYARDS, INDIANAPOLIS Oct. 3.-Nearly 200 head of horses were offered in the regular sale of Blair, Baker & Walter, which, ordinarily, would not be considered a liberal supply, but with the small attendance of buyers it was evident from the start that salesmen would have much difficulty in effecting a clearance, except at reduced prices. The bidding to establish a trading basis, but finally the offerings were changing hands slowly at what salesmen considered fully \$15 per head lower prices than a week ago. At the decline there was no really urgent competition, but a good clearance was finally made. Good chunks and heavy horses were reported at \$100@135, coach horses from \$115 to \$150, and workers and drivers from \$50 to \$110. Among the shippers to-day were J. J. Totten, of Fairland; Charles Decker, of Columbus; J. W. Rooker, of Zionsville; Blake & Sheets, of Anderson; John Vestal, of Plainfield; Williams & Razor, of Leroy, Ill.; L. C. Miller, of Corning, Ia.; J. W. Igo, of Shelbyville, Ill. Henry Burns, of Mattoon, Ill., and Andy Schicketanz, of this city.

He Is Omnipresent in the World's Affairs of Moment.

COLUMBUS, O., Oct. 3. - President Thompson, of the Ohio State University, in an address to-day on the subject "Does College Education Pay?" said: "In 1896. of the nine members of the Supreme Court, eight were college graduates, while six out of the eight Cabinet officers, 165 members of the lower House and seventy United States senators were graduates of some college or university.

have been college graduates, and about three-fourths of all Cabinet officers have had the same training. At the close of the civil war nearly every leader of either side was a West Pointer. "The college-bred man gets into his position ten years earlier than the uneducal man, and the young college men are becoming more and more leaders of the country. A college education is an absolute guarantee against poverty or distress. The successful men who are not college men only prove the greatness of opportunity.
